NAJD ALHARTHI

Industrial Engineer

+966535705071 najdaziz16@gmail.com Dammam, Saudi Arabia

SUMMARY

Saudi Industrial Engineer with a Bachelor's degree in Industrial Engineering from Taif University. Interested in production planning, process improvement, quality, and industrial operations. Skilled in data analysis, Lean Six Sigma, Excel, Power BI, and Minitab. Seeking to contribute to operational excellence through practical engineering solutions.

EDUCATION

Bachelor of Science in Industrial Engineering
Taif University | GPA: 3.95/4.00 (First Honors)

WORK EXPERIENCE

Industrial Engineering Intern
Hitachi Energy
07/2025 – 08/2025 | Dammam, Saudi Arabia

- Supported Production Planning and Industrial Engineering activities.
- Assisted with production planning, material planning, and inventory monitoring.
- Conducted time studies and process analysis to support workflow improvements.
- Used Excel and Power BI to analyze production data and prepare reports.

PROJECTS

Launching a New Assembly Line Using DMADV Methodology

Graduation Project

- Designed a new in-house assembly line using the DMADV methodology to optimize facility layout and production processes.
- Achieved a proposed 64% reduction in lead time, 61% increase in production capacity, and 6% improvement in space utilization.
- Awarded Third Place at the Taif University Graduation Projects & Research Exhibition (2026).

Lean Process Improvement

Course: Methods of Quality Improvement

- Applied Lean tools, including Value Stream Mapping (VSM), 5S, and Kaizen, to identify process waste.
- Proposed process improvements to enhance efficiency and reduce non-value-added activities.

CERTIFICATES

Lean Six Sigma Yellow & Green Belt

SKILLS

Excel | Power BI | SQL | Python | Minitab | Simio | AutoCAD | Lean Six Sigma | Process Improvement | Data Analysis
